Join us to explore the world of Virtual Ministry and how we, as parish, campus and young adult ministers and leaders, can bridge the digital gap and more effectively engage 20s and 30s with the Gospel.

**Explore** practical tools and ideas on how to access and leverage evolving media and cultural trends take to implement in your ministry.

**Learn** effective communication strategies from leaders in the field you can implement immediately.

**Network** with and learn from other leaders ministering to those in their 20s and 30s.

**Invest** in your professional development, taking time to exchange ideas and be encouraged in your work.

*"The use of technology and media is critical to capturing the attention of and sharing the Gospel with those in their 20s and 30s. If your Church or ministry is not on the internet, it doesn't exist. If you are not engaging them in a language they understand and respond to, someone else will."*
